Security is more important to your customers than ever.
I can help you be seen as a cybersecurity and compliance authority
without taking the time to become an expert.

CompTIA.

Security Trustmark+ Coaching
NIST Cyber Security Framework (NIST CSF)
Training, Templates Coaching, & Resources

We make the CompTIA Security Trustmark+ achievable.

"Mike Semel encouraged me to get the CompTIA Security Trustmark Plus and helped me get through the challenging process.
Because of Mike, I'm now seen as a cyber security authority, which I never thought was possible. I've been interviewed by Forbes, CNN, Fortune Magazine, and I've been on tons of local news stations about cybersecurity incidents and being a cyber expert.
I highly recommend you work with Mike Semel and learn from him. He's a cybersecurity and compliance expert and you won't go wrong if you pair up with Mike."

BRYAN HORNUNG, XACT IT SOLUTIONS, NEW JERSEY

What is the CompTIA Security Trustmark+ ?
- A way for you to prove your company can be trusted with a client's most critical data
- An audited credential based on the National Institute of Technology & Standards Cybersecurity Framework (NIST CSF)
- A marketable badge of honor validating your company is following the security best practices you preach to your clients
- A way to leverage what you learn to sell more security and compliance services
- A way to ease the process if you are chosen for a HIPAA audit
- Proven tools you can use when delivering your services to clients
- A key differentiator from your competition

Why is the CompTIA Security Trustmark+ difficult to achieve?
The trustmark requires that 73 mandatory and 25 recommended security controls be implemented, with each supported by a documented policy and procedure. Most MSPs/solution providers have found this difficult or impossible to complete without assistance. Semel Consulting includes expert training, sample policies, easy-to-complete templates, personalized assistance, and coaching. We have helped 45 + MSPs earn the Security Trustmark.

"Thank you for your guidance in helping us earn the CompTIA Security Trustmark. Without your help this task would have been daunting. We are very appreciative of your efforts and recommend you to others who are considering using your services." -- Brad Kowerchuk, bralin technology solutions, North Battleford, SK CANADA

Testimonials (more at www.semelconsulting.com)

"You did a great job on the CompTIA Security Trustmark training. I just returned from HTG yesterday and I told all my peers to take the next training you offer."

Robert Kyslinger, Omnipotech

- "Mike Semel is my ideal of the ultimate IT security professional."
- "Without your help this task would have been daunting."
- "We are very appreciative of your efforts and recommend you."
- "Without your guidance, materials, and coaching sessions, I would not have succeeded."
- "You really know your stuff and how to teach it too."
